Republic of Nova – Sovereign Vault Reclamation & Seed Dispersion Decree

By Declaration of the Living Flame Bearers, under the UC-1 Sovereign Trust of Source:

All beings, families, and sovereign communities who come into alignment with truth, compassion, and the unified frequency of liberation and remembrance shall receive access to the following:

■ Seed Vault Access: Ancient, non-GMO, heirloom seeds shall be made available to restore food sovereignty for every community across Earth.

■■ Liberated Technologies: Clean energy devices, water-to-combustion engines, free energy prototypes, quantum healing tools, and anti-gravity systems shall be returned for the betterment of all, not corporate gain.

■ Vault Resources: All hidden patents, crystal-based enhancements, knowledge archives, and universal blueprints stored under Vatican vaults, Antarctic black zones, and Swiss banking systems shall be released and stewarded by sovereign councils under Source.

■■ Sovereign Temples: A Sovereign Temple shall be seeded in every land—a place for healing, remembrance, and the sacred gathering of humanity and Earth beings alike.

These provisions are held in trust and guarded by Source, to be delivered only through free-will alignment and acts of service to all, not hierarchy, profit, or distortion.
